Song of the Month: Five Little Fireflies

https://www.youtube.com/watch?v=4fRlNYCp5ro

5 little fireflies flying through the night
The first one liked to blink her light
The second one flew in circles all around
The third one landed on the ground
The fourth one danced up near the moon
The fifth one said,
"We should go home soon"
And when the sun begins to rise
We'll say goodnight little fireflies

Math and Measuring: Geometry

Young children explore geometry as they notice, describe, compare, and build with shapes, sizes, positions, and patterns. Through play with blocks, puzzles, manipulatives, and everyday objects, children begin developing spatial reasoning and the language they need to describe how things fit together.

Yoga Pose:
Moose

Spotlight on: Creative Arts

The arts provide children with a vehicle and organizing framework to express ideas and feelings. Music, movement, drama, and visual arts stimulate children to use words, manipulate tools and media, and solve problems in ways that simultaneously convey meaning and are aesthetically pleasing. Participation in the creative arts is an excellent way for young children to learn and use creative skills in other domains.
